BenQ PB2240

Question:

I am always on the road, presenting all time at different locations even in different States. I need a projector that is bright enough to conduct professional business presentations on but also very light to carry?

Answer:

BenQ PB2140

BenQ PB2240

Question:

I need one projector that I can use in my boardroom during work hours but also be able to take home and put in my home theatre to watch videos & DVDs on?

Answer:

BenQ PB7210

Question:

The venue I will be using my projector in is prone to ambient light conditions as I present in large areas such as churches, hall and pubs & Clubs which sometimes can be very bright. I need a projector that may be able to be installed via a mount if needed, and also be able to project large bright images / videos for all to see?

Answer:

BenQ PB7230

Question:

The projector I need has to be able to be installed / ceiling mounted into large conference rooms, lecture theatres & large boardrooms. The venues will cater for very large groups so it is very important that the screen size is adequate for all to see and the projectors need to be very bright so that even in bright conditions, anything displayed is able to be seen.

Answer:

BenQ PB8240

BenQ PB8260

Question:

I will be using my projector solely for my home theatre. I would like a complete cinema experience with real life images and realistic colouring.

Answer:

BenQ PE8700 or BenQ PE7800
