To Whom It May Concern

I have been working with Phil McPhail and his team at Direct National and installing data projectors at Annandale SS for many years. I have always found them knowledgeable about the installation process and the correct data projectors to purchase for all our classrooms.

The team at Direct National have always been consultative. The team has always discussed the best products for classrooms as well as how to install to install them for the best price.

I have found the products are very efficient and suitable for our school and classrooms. They follow all EQ policies and procedures whilst on site and communicate with me during the time they are installing and they communicate with me throughout the whole process so all decisions are the best for our classrooms. Direct National are happy to work with the school to get the installation time that best suits the school. I have been very happy with the service provided by Direct National.

Your sincerely

Kerry Finn
